

With PInnacle's help, Pronto Connections doubled its business in 18 months

A PINNACLE GROWTH STORY

1 in a series

Pronto Connections is a bilingual communications firm specializing in inbound call response since 1980.

Lately the company has experienced powerful growth—new accounts, new revenue, new momentum—thanks in part to PInnacle 2.1.

A turnkey call center solution, it combines the industry's most powerful scripting and order-taking program with innovative TAS messaging and dispatch software.

Michele Ringwood credits the flexibility and reliability of PInnacle 2.1 in helping her organization streamline operations, maximize productivity, minimize agent training time, and meet client needs more easily. Ready for a growth spurt of your own?
